

GENUINE RUST PROTECTION SINCE 1973

WHO ARE WE

ENDRUST® is the industry leader in spray-on Automotive Underbody and Rust Protection.

ENDRUST® members are your locally owned, independent spray rustproofing specialists who understand local conditions and how to ensure effective and long-lasting rust prevention.

Your local ENDRUST® specialist is familiar with the latest application techniques and have exclusive access to the full range of high-performance ENDRUST® coatings

Whether you're a weekend off-roader or responsible for a fleet of mining vehicles, your local ENDRUST® specialist will stop rust for you.. Remember "You Can Trust ENDRUST®"

RUST NEVER SLEEPS!

"Many car owners underestimate the potential for rust to develop in their vehicle!"

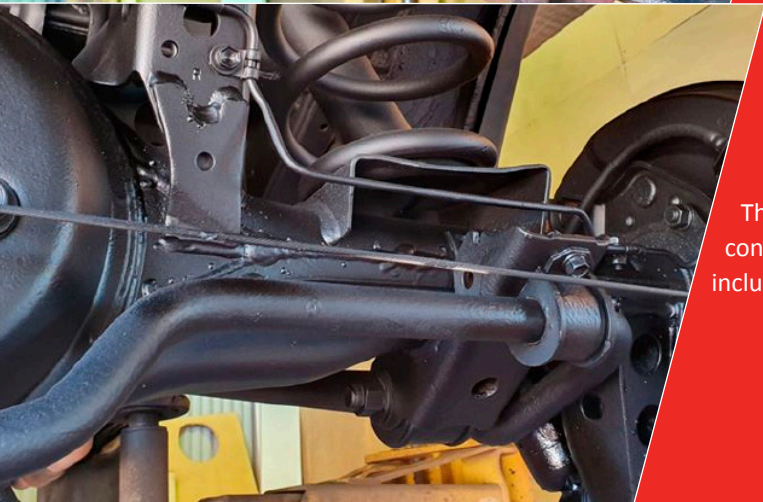

Our harsh Australian conditions can cause rust and corrosion to develop very quickly even in the best quality vehicles. If your vehicle is exposed to saltwater, moist salt-laden air, mud, dirt or snow then you need to take extra steps to protect against rust. Vehicle under-bodies in particular are often "out of sight and out of mind" but they can quickly rust if not protected.

WHO NEEDS RUST PROOFING?

- 4x4 off-road enthusiasts
- Beach drivers and fishermen
- Seasonal snow and high altitude driving.
- Campers, Caravans and RV's.
- Coastal dwellers.
- Specialty and elite vehicle users
- Mining and Industrial fleet operators.
- Vehicles used in Farming and Aquaculture.
- Any Vehicle operating in humid, salty or chemically hazardous environments.

ABOUT OUR PRODUCT

With over 40 years of industry-leading experience, ENDRUST® is the original manufacturer of rust protection coatings in Australia. Our products have been tried, tested and proven in one of the harshest environments on the planet – Australia.

The ENDRUST® “Core” product range include **UB302B** - the original “Underbody Black” - a bituminous, thixotropic, anticorrosive, sealant ideally suited for the complete coating of the underside of vehicles. **ML602** - a fogging style “Cavity Wax” purpose designed to float and coat inside box sections and hard to access panels. **RXCLEAR** – a fast-drying, clear, hard wearing finish that does not substantially alter the appearance of the substrate.

APPLICATION GUIDE

The application process for ENDRUST® Genuine Rust Protection strictly conforms with Australian Standard AS2662.2. The areas typically treated include:-

- The entire chassis both inside and out.
- The complete under-body and cabin floor.
- Lower cavities of the front and rear guards.
- Wheel arches, fuel, air and hydraulic tanks.
- Engine sump, transfer casing, drive line, axles and differentials.
- Suspension components, brake housings and steering arms.
- Fixing points for tow bars, bull bars and side steps.

PRODUCT BENEFITS

Protects the vehicle against perforation rust from the window level down.

Maintains a safer vehicle – all states require vehicles to be free of structural rust in order to comply with state roadworthy/fitness laws.

Maximises the future resale value – rust in a vehicle can significantly reduce the re-sale value.

“Nationwide Warranty”.
